

## History/Geography

We will learn how to locate and label different countries in the Northern and Southern hemisphere.

We will learn how to predict what life might be like in the different hemispheres.

We will learn to compare an area of the UK to a region in Europe.

We will learn how to describe the climate zones of the key places that we study.

We will learn about the economic activity between countries.

We will learn about the distribution of natural resources between countries.

We will learn how to use OS maps, including references, symbols and keys.

We will learn about how transportation has changed over time and how this has impacted on our lives today.

## PSHRE

We will learn about stereotypes and how to deal with them.

We will learn about the word 'consequence' and what this means.

We will learn about different types of relationships such as civil partnerships and marriage.

We will learn about physical contact and what is acceptable and unacceptable.

We will learn about the role of money, including the concepts of interest, loan and debt.

## RE

We will be learning about lent and what this means.

We will be thinking about how to prepare for a big event.

We will be learning about temptation through role play.

We will be learning about the way people live their lives through different religions.

## MFL

We will be learning the names of some musical instruments/classroom objects in French.

We will be learning the names of the days of the week in French.

We will be learning the names of the numbers 0-31 in French.

## Art/D&T

We will learn about the work of an artist.

We will learn about colour, looking at how to mix paint to create primary, secondary and tertiary colours.

We will learn how to create paintings using some of the 8 art elements.

We will learn how to create a collage using some of the 8 art elements.

We will learn about different ingredients from around the world and will use these to create different dishes.

We will deconstruct, design, create and evaluate our own method of transport.

We will learn how to use mechanisms.

## Topic Name

### All Around the World

## Science

We will learn about living things and their habitats, including how to group and classify animals.

We will learn about the simple functions of the digestive system.

We will learn about different types of teeth in humans.

We will learn about food chains, including prey and predators.

## Computing

We will create algorithms to make a given shape.

We will learn how to debug our code when necessary.

We will learn how to use variables in our code.

## Music

We will continue to listen to and appraise songs from a range of musical genres, looking at musical features.

We will learn how to play a musical instrument as part of a group (glockenspiel).

We will learn how to care for and respect our instruments.

## PE

We will learn about the 8 shapes of gymnastics and put these into sequences.

We will learn how to travel in different ways.

We will be learning skills of attacking and defending to use in games.

## English

We will learn about fiction and non-fiction writing this term.

We will take part in hot seating activities, considering events from different characters perspectives.

We will write a narrative in both 3<sup>rd</sup> and 1<sup>st</sup> person.

We will write newspaper reports about an event from a book.

We will write diary entries based on the adventures of characters.

We will write non-chronological reports based on different countries around the world.

We will write a persuasive leaflet based on different countries around the world.

## Maths

We will learn how to multiply numbers by 10, 100, 0 and 1.

We will focus on learning our 3, 6, 9, 7, 11 and 12 times table.

We will learn how to divide numbers by 10, 100, 0 and 1.

We will learn how to multiply up to a 3-digit number by a 1-digit number.

We will learn how to divide up to a 3-digit number by a 1-digit number.

We will learn how to find the area of a shape.

We will learn how to find fractions including equivalent fractions.

We will learn about tenths and hundreds as decimals.
