

Science Lesson Pathway

1. Mantra

Explain that this is a Science Lesson and we will be learning about our topic...

2. Retrieve and Revisit

Refer back to previous learning to retrieve knowledge and key vocabulary.

3. Share LO and Vocabulary

Share the LO (Big Question) and put it into context including new vocabulary related to lesson.

4. Teach and model

Children to be taught the knowledge to answer the Big Question. AFL, test it out.

4. Enhance or apply knowledge

Enhance knowledge through discussion and enquiry. Guided practical task or investigation. Children present their findings.

5. Evaluation/ reflection

Go back to Big Question and apply new knowledge to answer.

**AFL,
Questioning,
Evaluate and Reflect**
